

1  Label the respiratory system.

nose and mouth ~~pharynx~~ bronchi trachea lungs

2  Complete the text about how we breathe.

We breathe _____ oxygen from the air. A sheet of muscle called the diaphragm _____ when we breathe in. The oxygen from the air passes from the lungs into our _____. Carbon dioxide from our body passes from our blood into our _____. When we breathe _____ the carbon dioxide leaves our lungs and the diaphragm _____.

- Ask the pupils to look at the diagram of the respiratory system. Say the parts of the respiratory system in turn and get them to point to the part as you say it.
- Elicit from the pupils what each part of the respiratory system does.
- Ask them to read the sentences and write the names of the parts of the respiratory system.
- Ask the pupils what they know about how we breathe.
- Finally, ask them to complete the text about how we breathe.
